

Hiring Manager Name

[Address]

Dear Hiring Manager,

With nine years of experience in full-stack web development and systems architecture and artificial intelligence, I am confident I will be an excellent fit for Google's next Software Engineer summer intern. My experience has provided me with the innovative and technical skills necessary to successfully provide your company with multifaceted technical solutions across a wide range software platforms.

Currently, I am a computer engineering student at the University of Puerto Rico in my fourth year. During my development in college, I have participated in research projects from educational game development, autonomous vehicles, and theoretical machine learning models design.

I have refined my strengths through nine years of experience in DevOps, where I provided solutions in database technology, programming, operating systems. The following is a snapshot of my broader technical skills:

Agile Project Management

Custom Web and Mobile Applications

Database Programming

Data Science

Networking Devices and Tools

It would be a pleasure to learn more about Google needs, and I would welcome the chance to provide further insight into my knowledge of Machine learning, project management, technical abilities, personal attributes, and track record of success in building revenue generating web technologies and AI models compatible across multiple platforms, browsers, and devices.

Thank you for considering my candidacy for this position. I hope to hear from you soon to schedule an interview.

Sincerely,

Luis Romero-Sevilla
